August 2012

Dear Parents:

On behalf of the Waco Independent School District, I want to express my appreciation for your continued interest in supporting Waco ISD students involved in extra-curricular activities. Booster clubs and parent organizations are an essential part of our efforts for students to achieve excellence in both extra-curricular and co-curricular activities.

I firmly believe that parents play a significant role in the education process and the ultimate success of our students. Specifically, a parent's role involves support of the students manifested in different ways, including involvement in extra-curricular activities. Therefore, I believe that our schools are most effective when we work in partnership with parent organizations and booster clubs.

The following guidelines were compiled to assist you in complying with WISD policies and guidelines, University Interscholastic League (UIL) guidelines, and state and federal regulatory guidelines governing booster clubs.

Through parental support, our student groups are afforded many opportunities to develop and showcase their talents in the context of quality programs. The Board of Trustees and I thank you for your ongoing support of students and programs of Waco Independent School District.

Respectfully,

Dr. Bonny Cain
Superintendent
