Growth Mindset Vocabulary-

Making Improvements

Making improvements means to make steps whether big or small that leads to becoming better than you were before. Those improvements can be about grades, reading more or eating healthier.

Model:

Tell your kids about area you want to improve and steps you will take to improve.

Connect with your kids: Ask your child to think of one thing they would like to improve on. Help them set steps.

**Don't forget to celebrate those small steps to improvement for you and your child
